

Commercial Customized Program

An Alameda Municipal Power Energy-Efficiency Rebate Program

At a Glance

AMP's Commercial Customized Program is designed to provide rebates to commercial customers who install energy-efficiency equipment that does not qualify for the Commercial Lighting Retrofit Program or the HVAC Rebates Program.

Examples of energy efficiency equipment eligible for customized rebates are compressed air systems, server virtualization, and retrofitting **basic** T8 lamps and electronic ballasts with **high-performance** T8 lamps and electronic ballasts.

- **The rebate is based upon AMP's avoided power generation cost.**

Commercial Customized Rebate Rates	
Type	Rebate Rate
Motors	\$0.09/kWh
Lighting	\$0.15/kWh
HVAC, Refrigeration, Computer Systems	\$0.11/kWh

Requirements

- Applicants must have a valid AMP account and projects must be installed on the account listed on the application form.
- The projects must utilize new, energy-efficient equipment. Used, reconditioned, rebuilt, or restored equipment does not qualify.
- All required applications and project descriptions must be submitted to AMP.
- All projects must have a pre-installation and post-installation inspection by AMP.
- AMP must approve the project before work proceeds.
- AMP reserves the right to withhold funding for projects that do not meet technical requirements upon completion.

- In no case will AMP pay more than 100% of the actual non-taxed cost for the project.
- Applications will be accepted on a first-come, first-served basis until funds are exhausted.

How to Apply

- Complete the AMP Rebate Application and Project Information Form and submit to AMP.

Mail:

Alameda Municipal Power
Energy Management Supervisor
2000 Grand Street – P.O. Box H
Alameda, CA 94501

Fax:

(510) 814-5699

Email:

energymgt@alamedamp.com

(Forms should be scanned with a signature.)

- Contact AMP to schedule the pre-installation inspection.
- You will be contacted by AMP regarding project approval.
- Any technology or efficiency changes from the original submittal must be reported to AMP as soon as those decisions are made.
- When the project is completed, provide a copy of a paid invoice and a canceled check.
- Contact AMP for the post-installation inspection.
- AMP will send the rebate check. Please allow up to 6 weeks to receive the check.

Project Description

- Provide a written description of the proposed project including details about the existing equipment and the proposed equipment to be installed. Include operational schemes and other items that affect energy savings.
- Provide manufacturers specification sheets when appropriate or requested.

Technical Requirements

- Technical requirements for Customized Program projects will be specific to each project, and will relate to insuring a quality installation, equipment performance, and persistence of energy savings.

Supporting Documentation

- Provide narratives and definitions for the existing or assumed base case, as well as the proposed project.
- Provide base case and proposed project methodology and calculations used for energy savings.
- Provide base case and proposed annual kWh calculations.
- Provide estimated project costs. Upon completion of the project a copy of the paid invoice and a cancelled check will be required.
- Alameda Municipal Power and/or its designed technical consultants reserve the right to request additional supporting documentation as deemed necessary to verify and calculate the rebate. All customer information will be held in confidence.
