

## NEW PROGRAM FOR LOW-INCOME CUSTOMERS HELPS FIGHT CLIMATE CHANGE

### A WIN-WIN PROGRAM

AMP is excited to launch EAP PLUS, a new energy-savings program that benefits low-income customers and helps fight climate change.

This win-win program includes installation of energy-saving upgrades at eligible customers' homes, which lowers participants' bills and cuts greenhouse gas emissions.

### ENERGY-SAVING UPGRADES FOR EAP PROGRAM PARTICIPANTS

Customers currently enrolled in AMP's Energy Assistance Program (EAP) are now qualified to receive free energy-efficiency upgrades at their homes including whole-house weatherization, efficient LED lighting, advanced power strips and refrigerator replacement.

AMP estimates that the program will save more than

660,000 kilowatt hours of energy, which is the same as avoiding emissions from 99 cars driven for one year.

### ENERGY EDUCATION

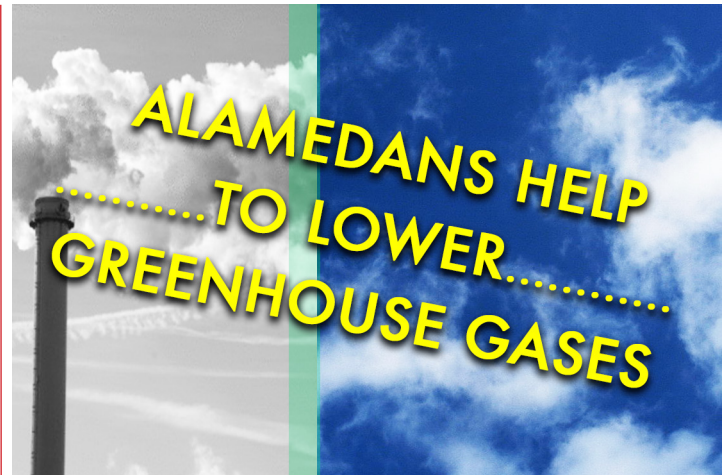

Educating customers is a key focus of the 18-month program, and can help address affordability by providing lighting and appliance upgrades and energy-saving education, resulting in lower electricity use at home and lower bills.

### CUTTING GREENHOUSE GAS EMISSIONS

The program is funded by prior short-term sales of some of AMP's renewable energy credits (RECs). The Public Utilities Board designates these funds solely for projects that reduce greenhouse gas emissions associated with electricity use in Alameda.

### FIND OUT HOW TO PARTICIPATE

[www.alamedamp.com/eap-plus](http://www.alamedamp.com/eap-plus)

### AMP ENERGY-SAVING PROGRAMS HAVE BEEN A BIG SUCCESS

AMP wants to THANK YOU for making Alameda's energy-saving programs a big success.

Through the participation of our customers, AMP's programs saved 1,471,579 kilowatt-hours of energy in fiscal year 2018, which saves the same amount of greenhouse gas emissions as taking 221 cars off the road for one year.

By saving energy and cutting greenhouse-gas emissions, Alamedans are protecting our environment and community.

Help us keep the momentum going. For those of you who haven't yet taken advantage of AMP's energy-savings programs, here's the information you should know.

### CASH REBATES

AMP is proud to offer its customers cash rebates on the purchase of energy-saving appliances and devices. It's quick and easy to apply online to get your cash -- just go to [www.alamedamp.com/rebates](http://www.alamedamp.com/rebates).

### ENERGY PLUS PROGRAM

Energy Plus offers substantial rebates to local businesses for interior and exterior lighting and refrigeration upgrades. AMP does most of the work, making energy upgrades easier than ever.

## CUSTOMER SPOTLIGHT: USS HORNET MUSEUM

The USS Hornet Museum, a local and national treasure, is one of many organizations and businesses benefitting from AMP's Energy Plus program.

### LONG-TERM SAVINGS

AMP's program retrofitted the lighting at the Hornet, exchanging old CFL bulbs for energy-saving LED bulbs. The lighting upgrade saves more than 16,000 kilowatt hours of power, and about \$220 per month in energy costs. When you do the math, the Hornet will save more than \$13,000 in five years.

The lighting upgrade saves more than 16,000 kilowatt hours of power, and about \$220 per month in energy costs.

### ABOUT THE USS HORNET

The Hornet, a national historic landmark, is an aircraft carrier that was used in combat in World War II. The museum honors the ship's legacy in naval aviation, space exploration and U.S. defense.

### ABOUT ENERGY PLUS

Energy Plus offers substantial rebates to non-profit organizations, local businesses and public agencies for interior and exterior lighting and refrigeration upgrades.

## PUB APPROVES AMP BUDGET

In June, the PUB approved AMP's \$65 million budget for fiscal year (FY) 2020.

### MAJOR PROJECTS FOR THE FISCAL YEAR INCLUDE

- Replacing breakers
- Preparing electrical infrastructure for new development projects
- Moving forward on a project to move utility lines underground

### LOWER RATES

- Residential electric rates that average 17 percent less in Alameda than in neighboring communities

### RELIABLE SERVICE

- Investment in our distribution system that help us maintain reliable service and a reliability record within the top quartile of all western U.S. utilities

### LEARN MORE

Go to [www.alamedamp.com](http://www.alamedamp.com) to view the FY 2020 budget materials.

## TARGET ENERGY-WASTING APPLIANCES WITH THE KILL A WATT MONITOR

Are your home appliances sapping all your energy? Use the Kill a Watt Monitor to identify energy-hog appliances and electronics.

### LEARN HOW MUCH ENERGY YOUR APPLIANCES USE

Borrow one of these portable devices from the library or AMP Service Center, and then simply connect it to your individual appliances. The monitor will display consumption by the kilowatt-hour. You can calculate your electrical usage by the day, week, month, even an entire year.

### CHECK OUT A KILL A WATT MONITOR TODAY

Simply go to the front counter at the library or AMP Service Center and ask to borrow a Kill a Watt Monitor.

### LOCATIONS

AMP Service Center: 2000 Grand Street

Alameda Free Library: 1550 Oak Street

## CHARGE YOUR EV FOR FREE

AT THE AMP SERVICE CENTER

2000 GRAND ST.

..... LEVEL 3 CHARGING ONLY .....
