

CALL 811 BEFORE YOU DIG

ALAMEDA
MUNICIPAL POWER

Buried electric, gas, water and cable utilities can exist just about anywhere on your property. Call 811 before you start any digging project. Whether you are planning to do it yourself or hiring a professional, smart digging means calling 811 before each job.

THE CALL 811 PROCESS

1 Every digging job requires a call - even "small" projects like planting trees and shrubs.

2 Call 811 (or go online to www.call811.com) and make a request at least 2 to 3 days before work will begin.

3 Wait for all utility operators to respond to your request.

4 Confirm that all operators have marked underground utilities.

5 Dig carefully around the marks.
