

ELECTRIC RATE SCHEDULES

**ALAMEDA
MUNICIPAL POWER**

A Department of the City of Alameda

SUPPLEMENTAL SCHEDULE EV-X EXPERIMENTAL ELECTRIC VEHICLE CHARGING DISCOUNT

Supplemental Schedule EV-X will be discontinued on June 30, 2020, conditional on the approval of a Time-of-use (TOU) rate for residential electric vehicle (EV) owners effective no earlier than July 1, 2020.

APPLICABILITY

This experimental supplemental schedule is applicable to customers operating registered, street-legal electric vehicles with a gross vehicle weight between 750 pounds and 8,000 pounds, to publicly or privately owned golf courses operating only electric golf carts, and to electric fleet operations. Gross vehicle weight (GVW) is defined as the curb (empty) weight plus maximum payload (people and cargo). The customer must agree to abide by the terms and conditions outlined below.

Participation under this schedule is voluntary and is subject to Alameda Municipal Power's (AMP's) sole discretion. This schedule is experimental and will remain in effect until such time that AMP implements a superseding time-of-use or other rate schedule for electric vehicle charging or until canceled by the Public Utilities Board.

DISCOUNT

Discounts will be applied to the charges billed under any of AMP's applicable residential, commercial, or municipal rate schedules. Discounts per vehicle per month are shown below. AMP will be the final authority in the determination of GVW for the purpose of categorizing vehicles for discounts.

Vehicle Type	Gross Vehicle Weight Range (GVW)	Discount Calculation		
		kWh/Month	Rate \$/kWh	\$ Per Vehicle Per Month
Very Light Duty	750 lbs. – 1,999 lbs.	150	\$0.06	\$9.00
Light Duty	2,000 lbs. – 4,999 lbs.	250	\$0.06	\$15.00
Medium Duty	5,000 lbs. – 8,000 lbs.	350	\$0.06	\$21.00
Commercially-Operated Golf Carts and Fleet Vehicles	50 percent of the metered kWh for the separately metered golf cart or fleet vehicle charging facility			

If a participating customer can demonstrate that vehicle charging consumption is significantly different than shown above, an adjustment to the discount may be made at AMP's sole discretion.

DEFINITIONS AND SPECIAL CONDITIONS

ADOPTED:

RESOLUTION NO.

(Superseding Supplemental Schedule EV-X Effective July 1, 2014)

Effective: January 1, 2020

ELECTRIC RATE SCHEDULES

ALAMEDA MUNICIPAL POWER

A Department of the City of Alameda

1. **PROOF OF REGISTRATION**

Customers are required to provide proof of registration of the vehicle(s) when applying for service and when requalifying under this schedule. The customer agrees to immediately notify AMP in the event that they are no longer operating the electric vehicle(s), or when, in the case where more than one vehicle is being operated, the number of electric vehicles being operated changes.

2. **VEHICLE CHARGING**

The customer agrees to charge their electric vehicle(s) during AMP's off-peak hours (between 8:00 p.m. and 8:00 a.m. Monday through Friday, and all hours on Saturday, Sunday, and days observed as non-work holidays by the City of Alameda).

3. **ELECTRIC GOLF CARTS**

Discounts for golf carts apply only to commercial golf course operators. The golf carts must be charged at a separately metered facility designed only for recharging electric golf carts. The operator agrees to use only electrically-powered golf carts. In the event any non-electric golf carts are used, the operator may be disqualified from receiving this discount.

4. **FLEET ELECTRIC VEHICLES**

Fleet electric vehicles must be charged at a separately metered facility designed only for and dedicated solely to the recharging of those vehicles.

5. **METERING**

Except as specified in 3 and 4 above, a separate electric meter for electric vehicle charging is not required for service under this schedule. However, AMP may request that a separate meter be installed at its expense to monitor electricity use for load research and forecasting.

6. **ENERGY AUDIT**

Customers taking service under this schedule may be asked to allow AMP to perform an inspection of facilities or plans for the purpose of making energy efficiency recommendations and/or verifying the installation of electric vehicle charging equipment.

7. **CUSTOMER SURVEY**

Customers may be asked to provide information about the operation of the electric vehicle(s) including, but not limited to, mileage, maintenance, charging preferences, driving impressions, and other information.

8. **RE-QUALIFICATION**

All customers must re-qualify annually by submitting an application and proof of current registration.

9. **TERM**

The discount for each vehicle will commence no later than the second bill after the application is approved. AMP, at its discretion, may remove the customer from this schedule in the event the customer no longer meets the conditions described herein.

10. **RULES and REGULATIONS**

Other conditions, as specified in AMP's Rules and Regulations and as stated in the customer's primary rate schedule, shall apply to this supplemental electric rate schedule.
